No	Software	Description
1	Operating system	Windows 7 or higher
2	Hardware	Intel Pentium 4 processor or higher 512 Megabytes of RAM or higher
3	Software	Visual Studio Code, Dreamweaver
4	Web browser	Internet Explorer 11 , Chrome, Firefox

I. Introduction and website installation

- This document is created to guide users use the website – Autoworld effectively. It is advisable that users should read this document before starting to use this website in reality.

- To run *Autoworld* website, users need to do the following steps:

1. Download the file rar *eProject – Autoworld by Group 4 (FPT Aptech HCM)* via this link: https://goo.gl/apYr19
2. Extract the file rar: *eProject – Autoworld by Group 4 (FPT Aptech HCM)*
2. Open the folder *eProject*
3. Open *Index.html* file to start the website. Look at figure 1 for illustration

Figure 1

4. If done successfully, users will see the Homepage like figure 2 below

Figure 2

II. **Menu**

- This component is the navigation bar for all the webpages in the *Autoworld* website. To switch to other pages, users simply need to click on a particular section. For example, figure 3 below illustrates how to switch from Home page to Product page.

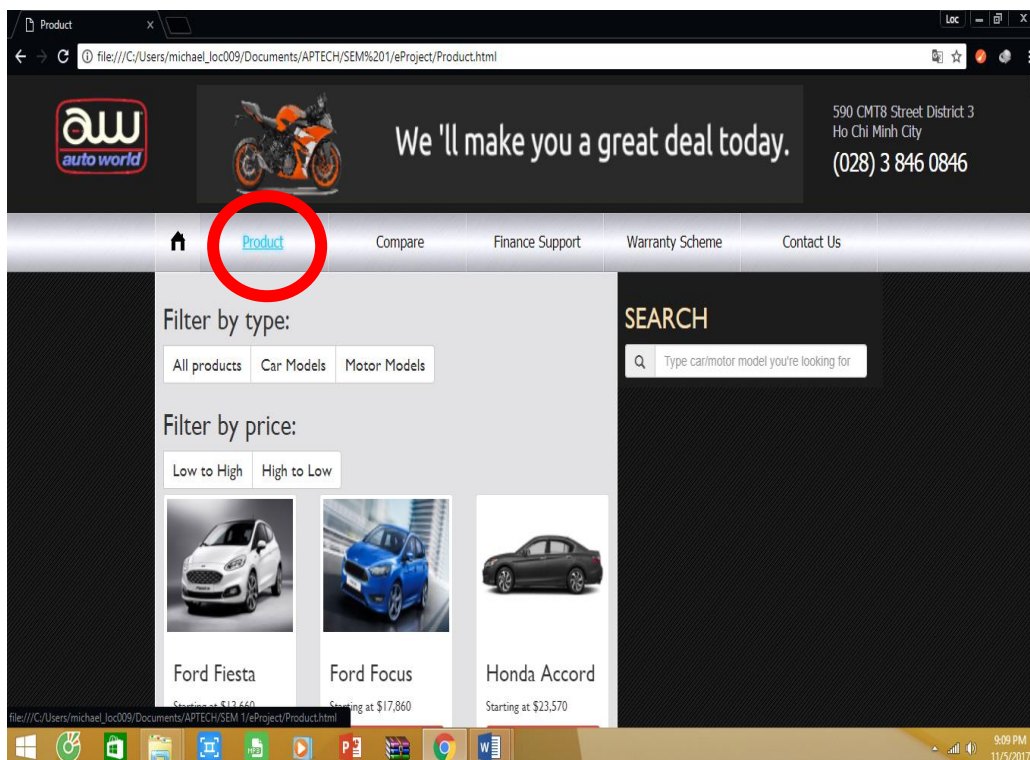

Figure 3

- Additionally, users can use the menu embedded in the footer to switch pages.

III. Product page

- This webpage allows users to find the information for the products they're looking for. To get the details of a particular car/motor item, users need to click on the button "Click for more details", which will automatically open the information page for that item. For example, figure 4 illustrates how to get detailed information for Ford Fiesta.

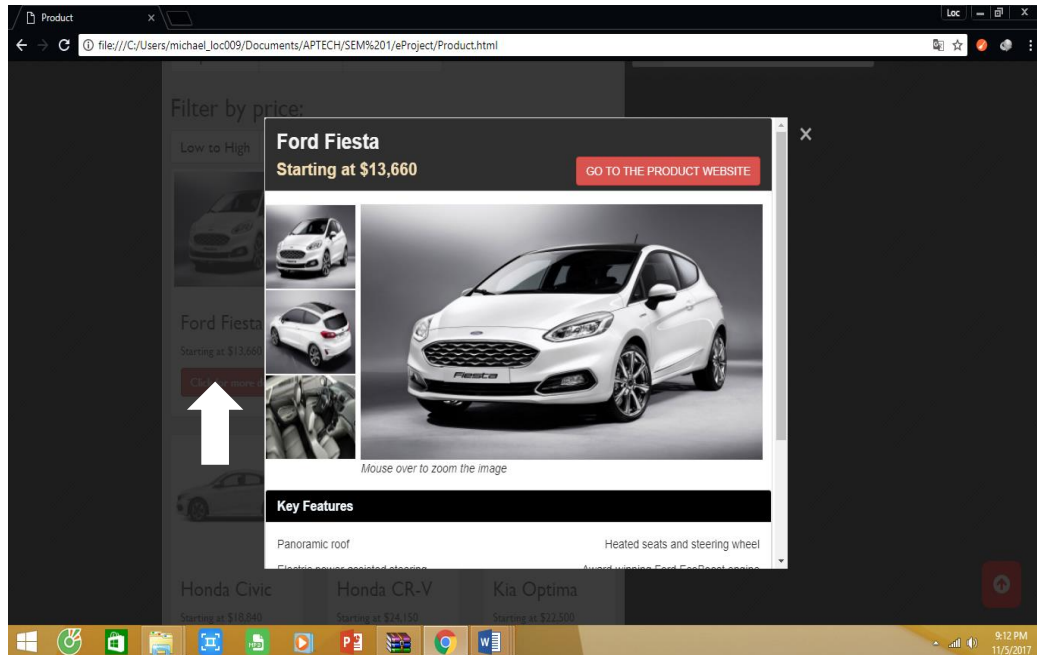

Figure 4

- To make it easier for users to find the product as fast as possible, we created to filter option and search bar.

- As for filter by type:
  + All products: to show all car and motor models that *Autoworld* offers
  + Car models: to show only car products
  + Motor models: to show only motor products
- As for filter by price:
  + Low to high: to sort products from low price to high price
  + High to low: to sort products from high price to low price
- As for search bar: To use this function, users need to type the name of a particular product and then press enter. To reset, they need to erase what they typed and press enter. Look at figure 5 for illustration.

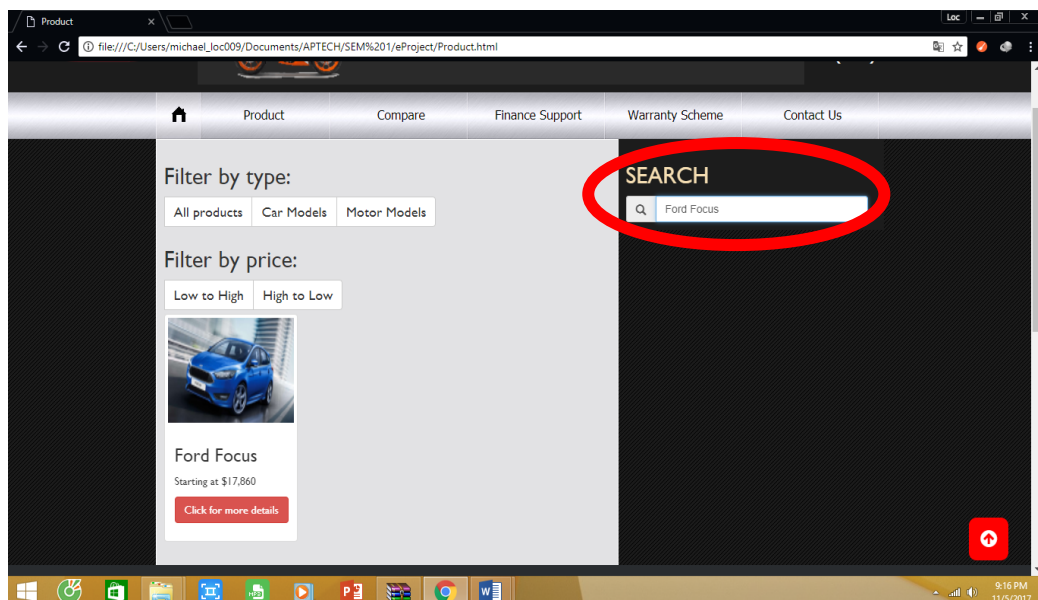

Figure 5

IV. Compare page

- This webpage allows users to compare products together in terms of car/motor type. For example, if users want to compare car products, they need to click on button "Click to compare" in the car comparison section. Next, *compare – Car* page will automatically open and users need to **read the instruction carefully** before starting using the compare function. Look at figure 6 for illustration.

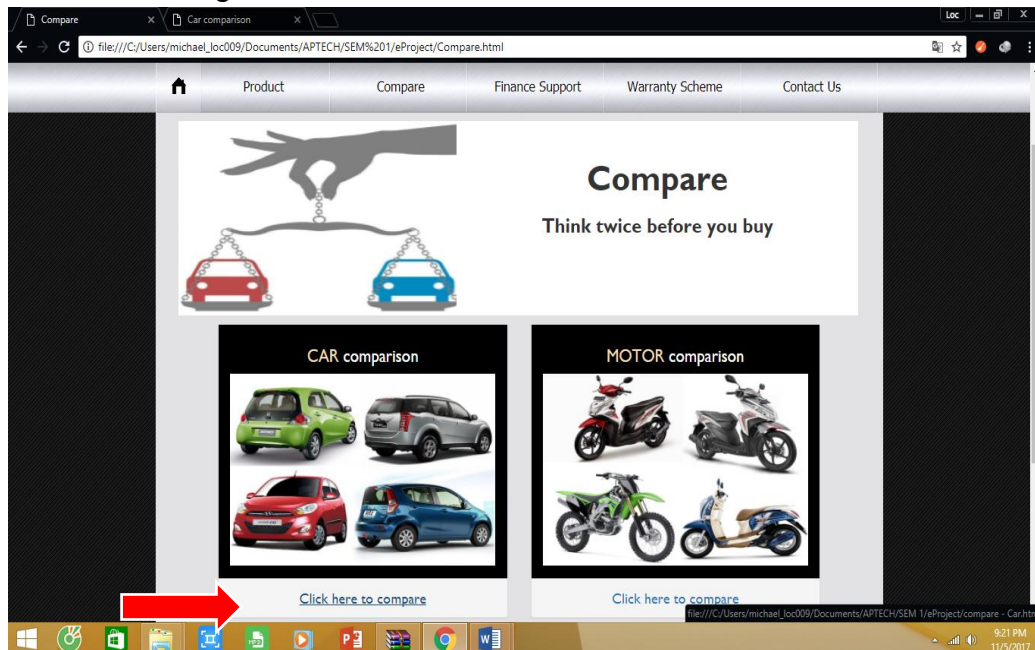

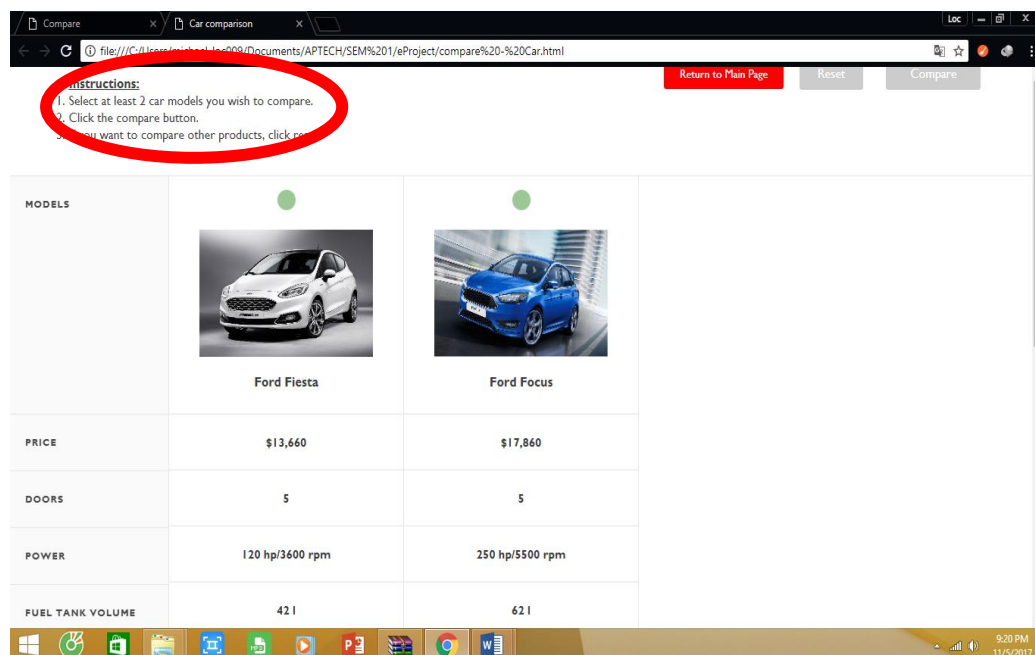

Figure 6.1

Figure 6.2

V. Finance Support page

- This webpage allows users to get information about banks/organizations that offer auto loan. Users simply click on the "Click for more info" button to see the details about interest rate, maximum allocation loan, etc. If users want to connect to a particular bank/organization, they can click on the "VISIT SITE" button, which will automatically link to its website. Look at figure 7 for illustration.
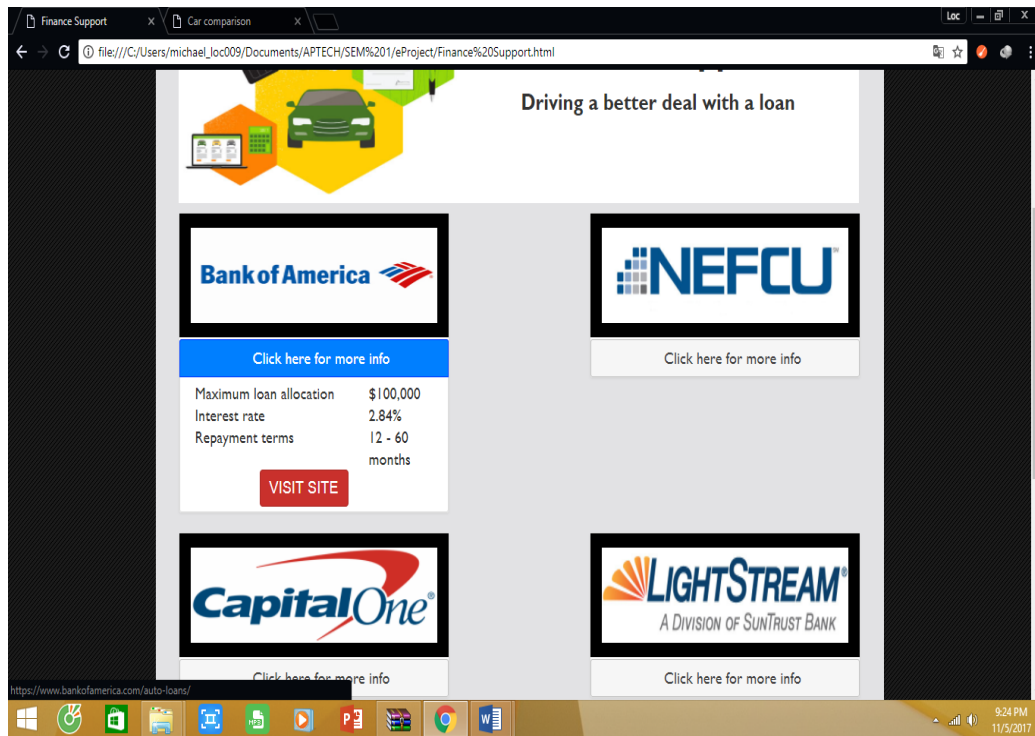

Figure 7

VI. Warranty Schemes page

- This webpage allows users to download warranty scheme according to car/motor brands. For example, figure 6 illustrates how to download the warranty scheme for Ford car brand.

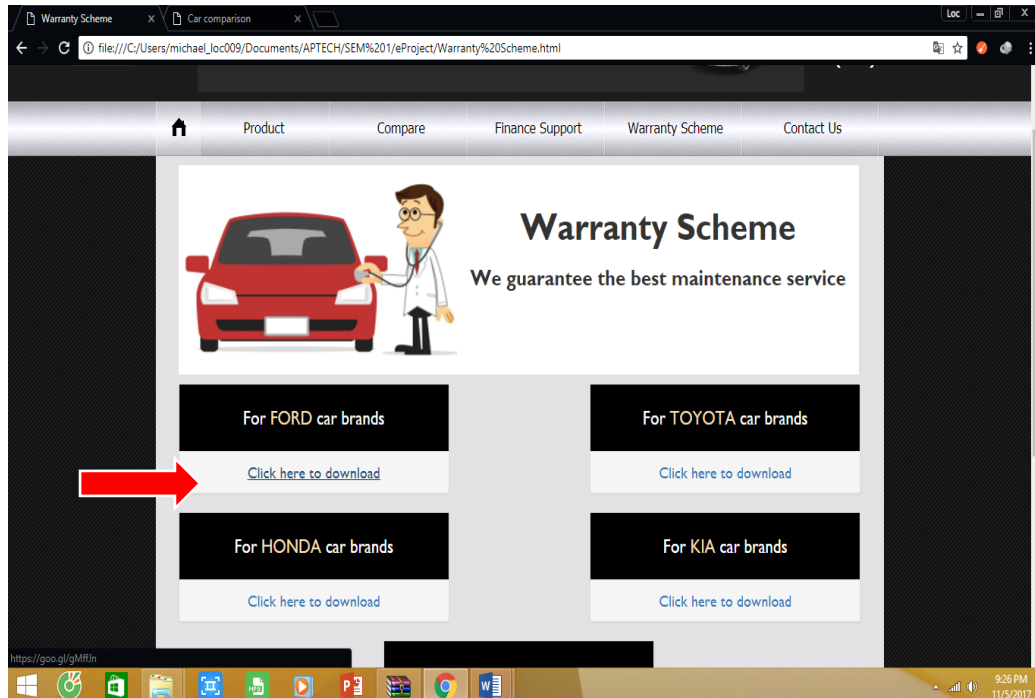

Figure 8

VII. Contact Us page

- This webpage allows users to request any information they want to *Autorworld*. In order to send the request successfully, users need to type in required inputs or else their request will be denied. For example, figure 9 illustrates what will happen if users type the invalid email address.
